### Whole School Provision Map 2017-2018

Our provision mapping takes into account the full scope of provision, including high quality whole class teaching, guided and group work and individual interventions. This enables us to identify and overcome potential barriers to learning and meet the needs of all pupils within and beyond the school setting. If your child has a specific need in any of the four areas detailed below, they may receive the following interventions in order to support their learning. This list is not definitive and other alternatives may be sought according to individual needs.

<b>Quality First Teaching - High quality teaching and differentiation within class</b>	
<p>The majority of children achieve well through high quality classroom teaching. Quality First Teaching provides high quality work as part of a broad and rich curriculum that engages children in a range of activities and experiences to develop their skills.</p>
